TENT SETUP INSTRUCTIONS
Instant up, small tent, full fly
(The product may look different from yours. It is for illustration purpose only.)

Before you begin
• Read all instructions before set up.
• Select a level site clear of rocks, branches, and other hard or sharp objects, to install your tent.
⚠️ WARNING: Keep clear of overhead power lines.
• Do not set up your tent under trees because of potential lightning strikes or falling tree limbs in inclement weather.
• NOTICE: Secure product with all ground stakes, guylines and fly attachments for optimal performance and to prevent property damage or personal injury.
• For best results in windy conditions, position narrow end of tent into the wind.
• Two people recommended for setup.

Things You Should Know
• Condensation is normal and IS NOT LEAKAGE. It can be minimized by providing good ventilation.
• Tree limbs, tree sap, bird droppings, or moisture steadily dripping off tree limbs can cause damage to the tent fabric and its coating.
• Do not store tents without drying it off thoroughly and brushing off caked dirt.
• Stakes should be removed by pulling on the stake itself. NEVER PULL ON THE TENT TO REMOVE STAKES AS THIS COULD RESULT IN PROPERTY DAMAGE OR PERSONAL INJURY.
• Prolonged exposure to the sun can seriously damage material and/or cause it to become discolored.

⚠️ WARNING: KEEP ALL FLAME AND HEAT SOURCES AWAY FROM THIS TENT FABRIC.
This tent meets the flammability requirements of CPAI-84. The fabric may burn if left in continuous contact with any flame source. The application of any foreign substance to the tent fabric may render the flame-resistant properties ineffective.
